

bill, Mr. Clerk.

CLERK: Senator Lindsay, I understand you want to reoffer AM3657, Senator.

SENATOR HALL: Senator Lindsay.

SENATOR LINDSAY: I am sorry, Mr. Clerk, what page was that?

CLERK: It is 1105, Senator.

SENATOR LINDSAY: Thank you, Mr. Clerk. This was the amendment that I discussed on the last time I arose to speak. What it would do is to go back to the way the, and Senator Warner explained it, to go back to the way I guess the committee originally sent the bill out with committee amendments. This is the way I believe the bill would have stood had the committee amendments been adopted, but, regardless, they did have a concern with that. I don't mean to imply that there was no concern with that, but the effect of the bill would be that the form, the real estate transfer statement, would no longer have the federal tax ID number of the individuals included on it. Again, it is a Catch-22 sort of thing. The problem that the local officials will have, the local officials at least in my county will have with obscuring that is it is going to cause a problem for them. The alternative then is to take out the social security number from the form. There is a problem with publicly reviewing those tax ID numbers, so certainly that is the problem you run into. You can't get this information to the public, to the appraisers without or with that tax ID number located on it. So we have rejected the idea of excluding Douglas County from the operation and I believe General File we talked about the...talked about the possibility of, or at least that is the way it was adopted, of obscuring it. My locals have a problem with the idea of obscuring it, so this is another suggestion for you and that is to take that number off the form altogether. With that, I'd be happy to try to answer any questions. I would urge the adoption of the amendment.

SENATOR HALL: Thank you, Senator Lindsay. Senator Bernard-Stevens, followed by Senators Warner and Bromm. Senator Bernard-Stevens.

SENATOR BERNARD-STEVENS: Thank you, Mr. President, members of the body. Senator Lindsay I think knows or at least I suspect
